

Copper Road UK

# Training

## Team Development

A quick search on the internet will return so many companies offering team development courses. This workshop however, is designed for companies experiencing rapid growth within the UK telecom industry.

At **Copper Road** we know that when a business starts out it's all hands to the pumps, so we provide **training** and **workshops** to develop teams that strive to create and work in an exceptional business.

### Themes covered

**Communication** – The good, the bad and the useless

**Trust** – Not to ridicule, judge or exclude, but to listen, value and contribute

**Listening** – Not just waiting for your turn to speak

**Brainstorming** – Idea generation in a novel way

**Problem solving** – Working as a team

**Failure** – Recognising it for what it really is and moving on

**Setting goals** – Setting direction

### Leaders not managers

All change and direction comes from the top. If you're leading a team but get frustrated that you are too busy to get involved then we can help. Business is not a democracy so communicating to and through teams is an integral part of our approach.

This is not a leadership and management course (we can talk to you about those if you wish) but about a team that performs brilliantly together.

## Get in touch

If you want to stand out from the competition, please get in touch by phone, email or through the website. We look forward to talking through your specific requirements.
